

How does GPA work?

GPA stands for grade point average. It is the number that sums up how well you've performed academically each Trimester.

Example:

Science → C → 2

Mathematics → C → 2

English → B → 3

History → C → 2

PE → A → 4

Art → A → 4

To calculate your average GPA,

$(2+2+3+2+4+4=17 \text{ divided } 6) =$

Your GPA is 2.83
