

# MEET THE TEACHER

## MS. MELTON LITERACY SPECIALIST

### ALL ABOUT ME

I have taught many grades here at W.D. Hall over the past 8 years. Most recently, I completed my masters degree in Literacy Development with an emphasis in literacy programing. I am excited to be in the role of Literacy Specialist here at W.D. Hall. This position allows me to work closely with students who need extra support in grasping literacy concepts. I also work daily with students who are new to our school and country by coming alongside them in their English language development. I am grateful for the opportunity to do the work that I feel most passionate about each day!
