IPM statement

It is the goal of Cajon Valley School District

to implement IPM by focusing on long-term prevention or suppression of pests through accurate pest identification, by frequent monitoring for pest presence, by applying appropriate action levels, and by making the habitat less conducive to pests using sanitation and mechanical and physical controls. Pesticides that are effective will be used in a manner that minimizes risks to people, property, and the environment, and only after other options have been shown ineffective.

Our pest management objectives are to: *(Example: Focus on long-term pest prevention)*

Focus on long-term pest prevention with minimal pesticide applications

IPM team

In addition to the IPM Coordinator, other individuals who **are** involved in purchasing, making IPM decisions, applying pesticides, and complying with the Healthy Schools Act requirements, include:

Name and/or Title

District Supervisory, Custodial & Groundskeeping Staff

Role in IPM program
Applications

Pest management contracting

Pest management services are contracted to a licensed pest control business.

Pest Control Business name(s): Aardvark Ant & Pest Control and Algon

Prior to entering into a contract, the school district has confirmed that the pest control business understands the training requirement and other requirements of the Healthy Schools Act.

Pest identification, monitoring and inspection

Pest Identification is done by: Staff

(Example: College/University **staff**, Pest Control Business, **etc.**)

and results are communicated to the IPM Coordinator.

Monitoring and inspecting for pests and conditions that lead to pest problems are done regularly by

Maintenance & Operations Staff

(Example: District **staff title**, e.g. Maintenance staff)

Specific information about monitoring and inspecting for pests, such as locations, times, or techniques include: (Example: *Sticky monitoring boards are placed in the kitchen and are checked weekly by custodial staff.*)

Pests and non-chemical management practices

This child care center has identified the following pests and routinely uses the following non-chemical practices to prevent pests from reaching the action level:

Pest	Other
Ants	
Roaches	
Rats/Mice	
Weeds	
Remove food	
Fix leaks	
Seal Install Physical cracks barriers removal	
Traps	
Manage irrigation	
Bait Gels, Adequate Housekeeping	

Bait Gels, Adequate Housekeeping
Bait Stations & Snap Traps
Mulch

Chemical pest management practices

If non-chemical methods are ineffective, the school district will consider pesticides only after careful monitoring indicates that they are needed according to pre-established action levels and will use pesticides that pose the least possible hazard and are effective in a manner that minimizes risks to people, property and the environment.

This child care center expects the following pesticides (pesticide products and active ingredients) to be applied during the year. (This list includes pesticides that will be applied by school district staff or licensed pest control businesses.):
