Retiree Health Benefits:

An employee who is hired prior to June 30, 2015, has ten (10) years of service in the District (the last five years must be consecutive) and has reached age fifty-five (55), is eligible to receive District health and dental coverage for his/herself and eligible dependents until age sixty-five (65). Effective July 1, 2015, retirement benefits for new employees with a start date on or after July 1, 2015, will exclude district-paid dental and medical coverage for dependents. Retired employees may choose to pay the costs to continue coverage for their dependents until the employee becomes eligible for Medicare as outlined below. Eligible dependents of retired employees who are enrolled in District medical plans may continue coverage in the plan as long as the retiree is enrolled. If the eligible dependent of a retiree becomes eligible for Medicare, they should enroll in Medicare parts A and B to continue coverage under the District plan. If the eligible dependent does not enroll in Medicare parts A and B they may continue coverage under the District plan but must pay the difference between the premium with Medicare coverage and the premium without Medicare coverage. If the dependent is already eligible for Medicare at the time that the employee retires, the dependent must immediately enroll in Medicare parts A and B in order to continue to be covered by the District sponsored plan, or must pay the difference in premium cost.

The District will provide medical insurance for retirees only, sixty-five and older, who qualify for Medicare and who served the District for at least 15 years and were an administrator for the last five years.
