Federal Laws

- ❑ Equal Population
- ❑ Federal Voting Rights Act
- ❑ No Racial Gerrymandering

Traditional Criteria

- ❑ Communities of interest
- ❑ Compact
- ❑ Contiguous
- ❑ Visible (Natural & man-made) boundaries
- ❑ Respect for voters' wishes and continuity in office
- ❑ *Planned future growth*

Since the lines will be revisited in 2021 (following the release of the 2020 Census data), planned future growth does not typically play a big role this year.

Demographic Summary

Each of the 5 trustee areas will need about 32,195 people.

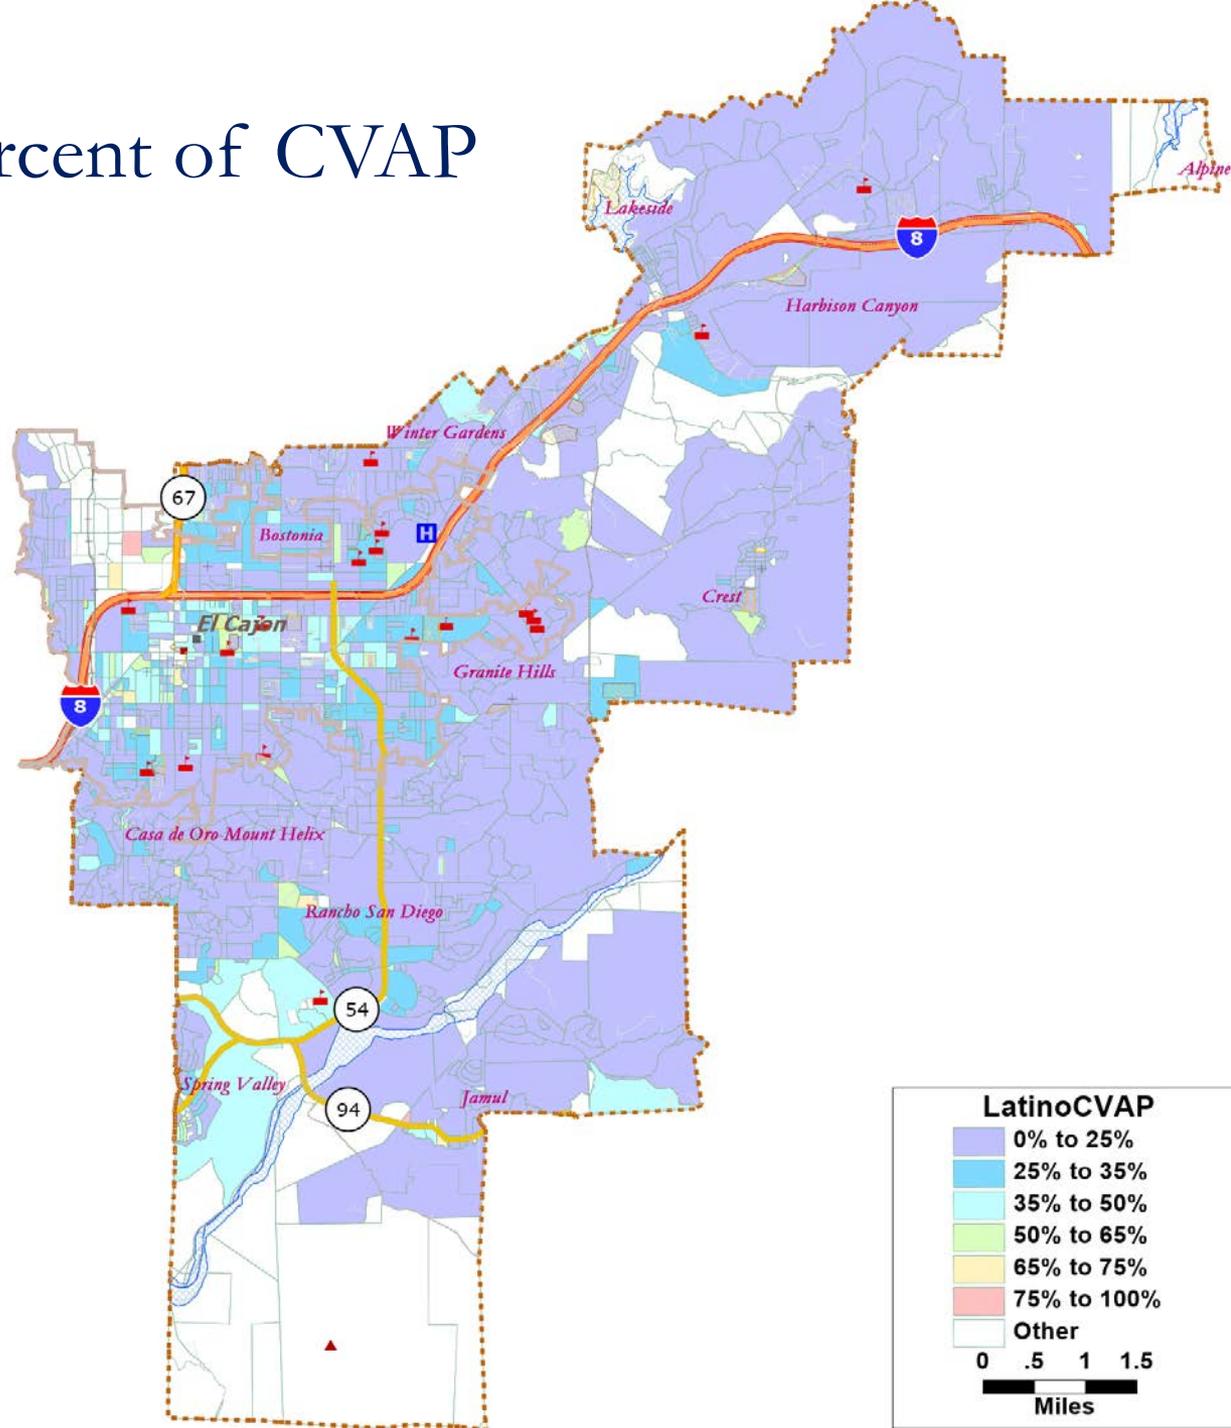

All of these data categories can be mapped.

Latino Percent of CVAP

5

Citizen Voting Age Population, or CVAP, is used as the primary measure of voting strength of a “protected class” population. District borders should not divide a heavily “protected class” neighborhood in a way that dilutes their voting strength.

There is no neighborhood with a geographic concentration of Asian-Americans or African-Americans.

“Other” Language

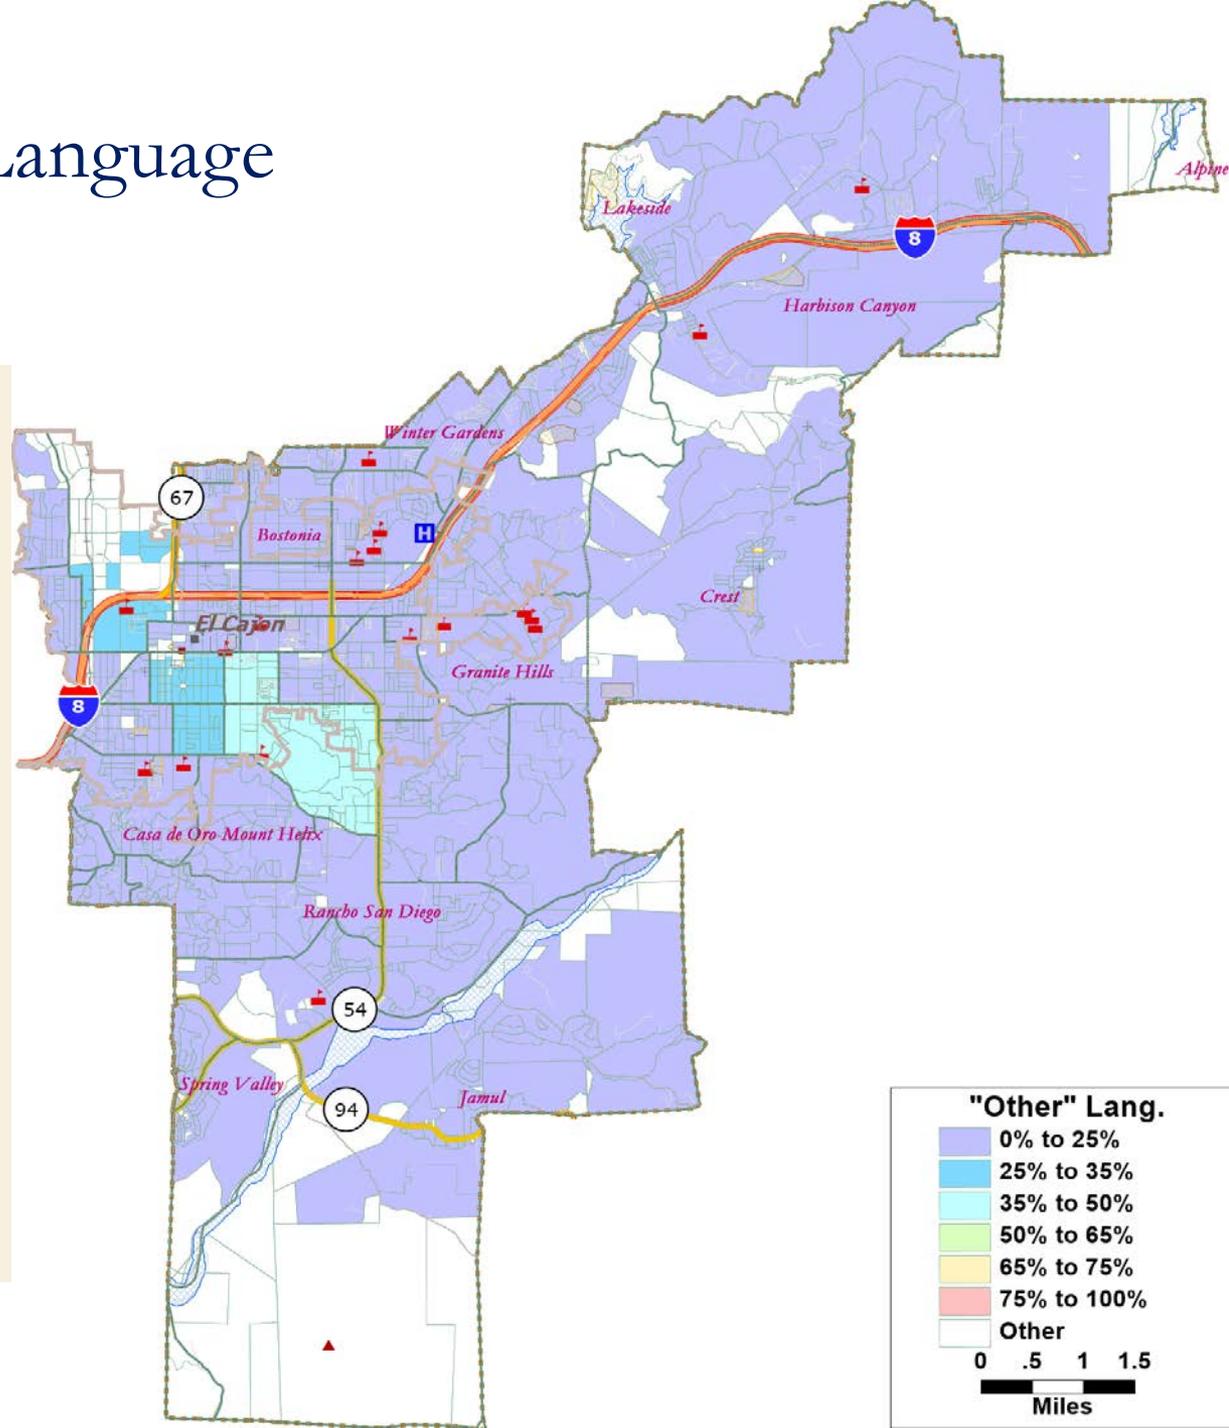

7

The Census Bureau’s American Community Survey asks households whether they predominately speak English, Spanish, an Asian language, or an “Other” language at home.

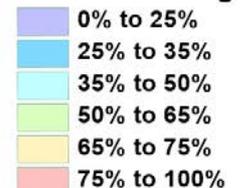

In NDC’s recent districting work with the City of El Cajon, NDC and City staff figured out that the data on “Other” language spoken at home was the closest the Census comes to a count of Middle-Eastern residents.

The area where these residents are most concentrated is shown with the light blue and slightly darker blue colorings.

Data shown at Census Tract level of geography (shown with brown lines on map)

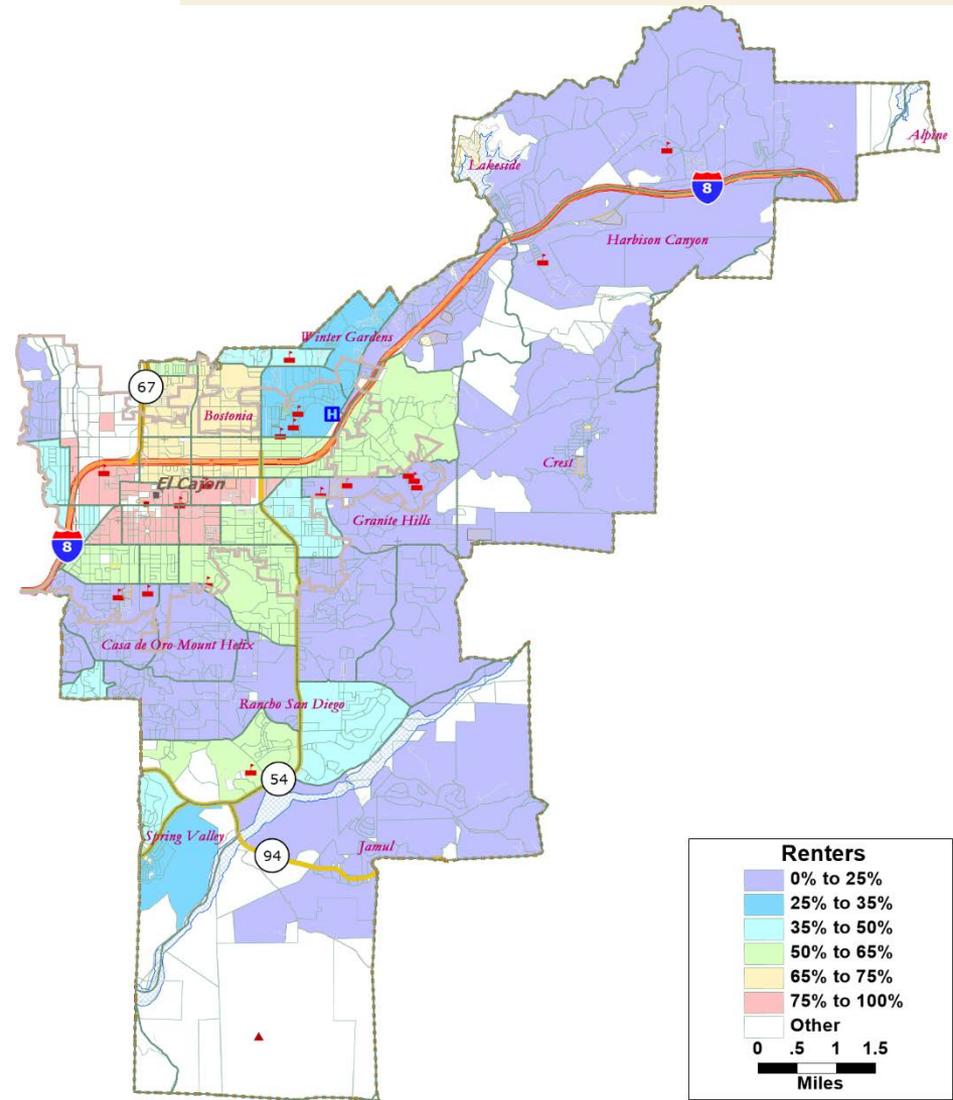

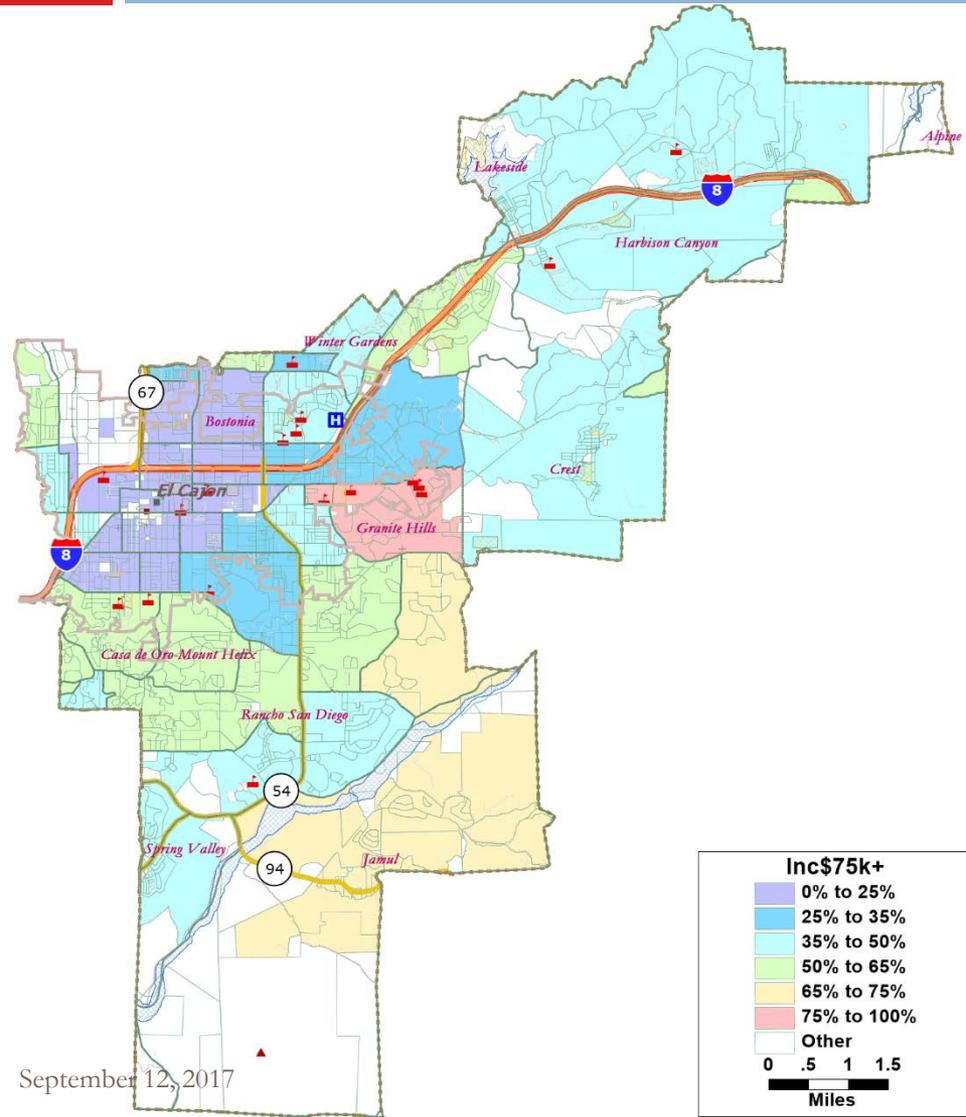

“Other” Lang.

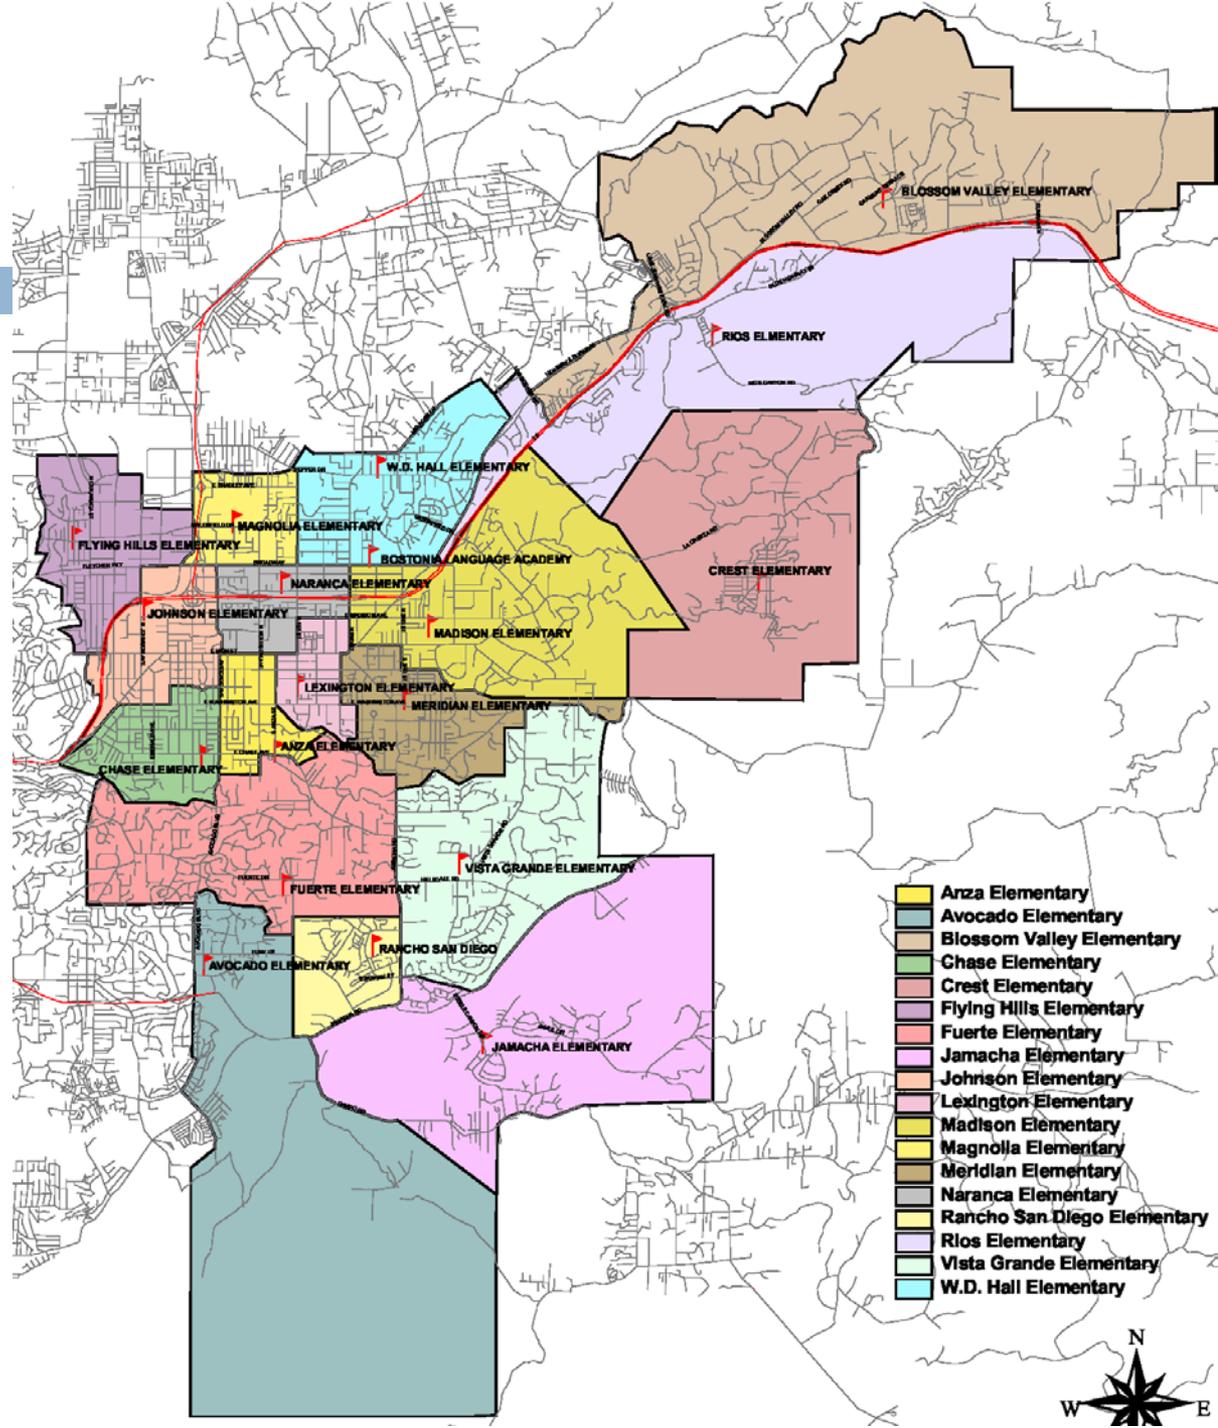

Income Levels, Renters

Map shows the percentage of households occupied by renters and the percentage of households with annual household income over \$75,000 per year.

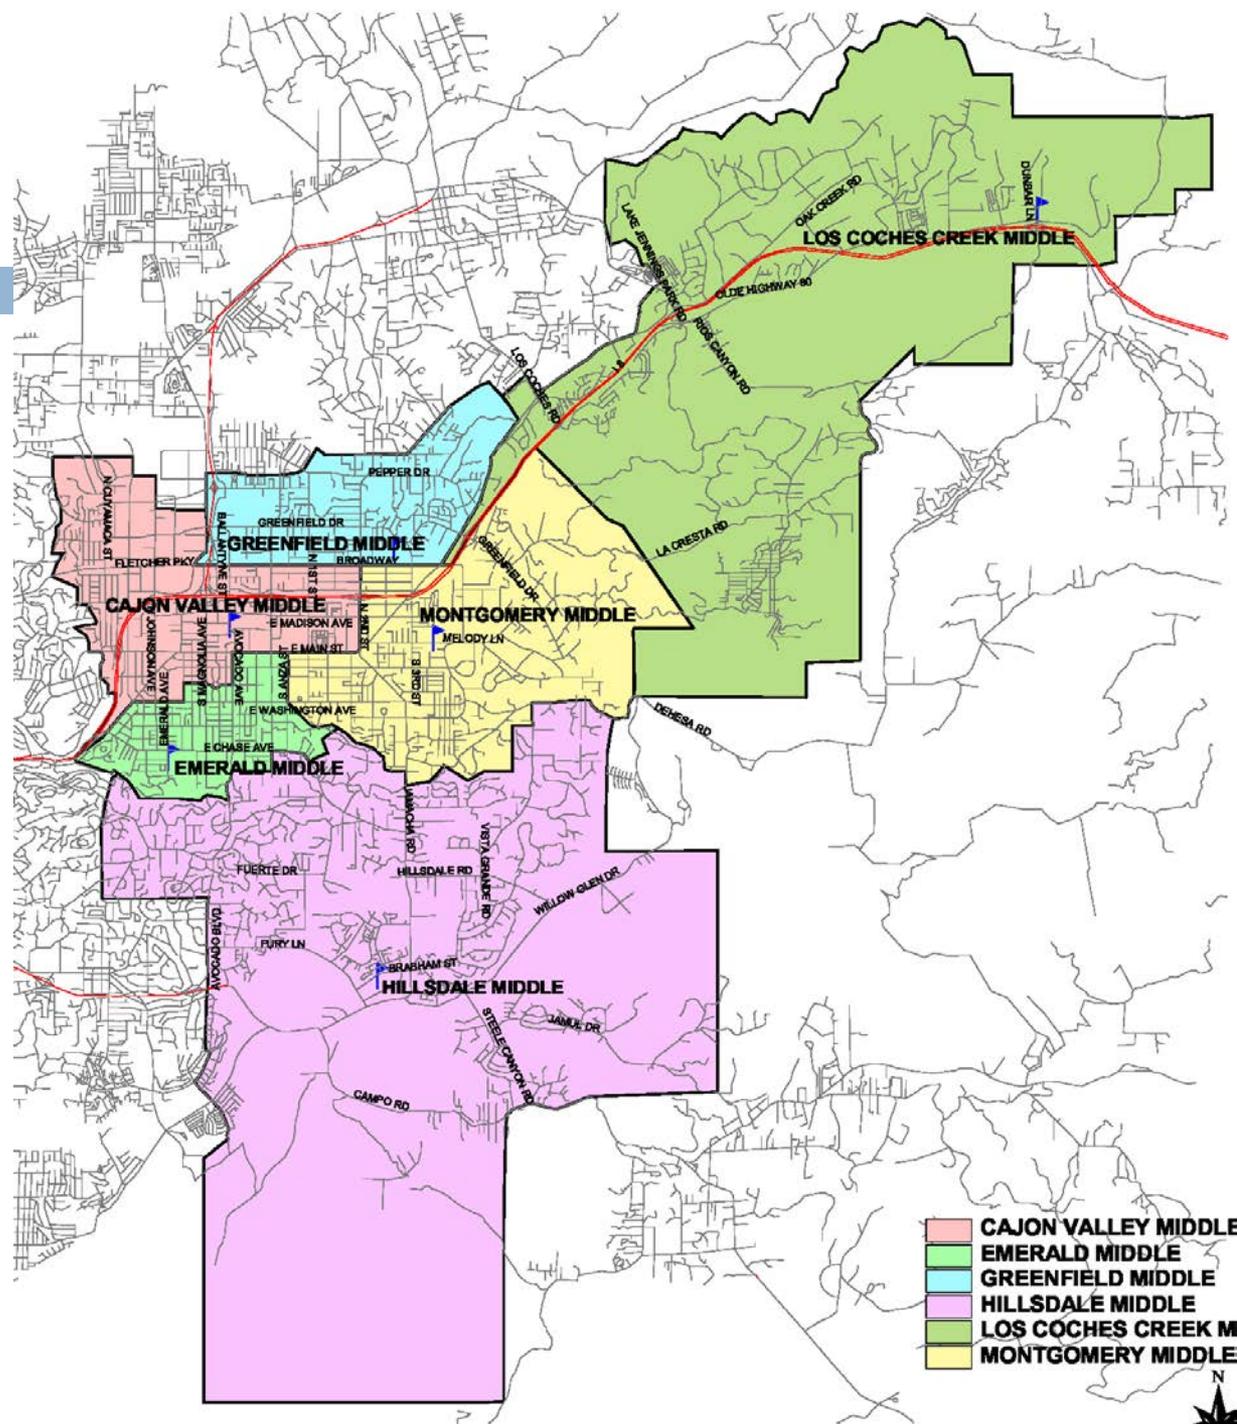

Data shown at Census Tract level of geography (shown with brown lines on map).

Defining Communities of Interest

11

1st Question: what is your neighborhood or community of interest?

A Community of Interest is generally defined as a neighborhood or community of shared interests, views, problems, or characteristics.

Possible community feature/boundary definitions include:

- ❑ School attendance areas
- ❑ Natural neighborhood dividing lines, such as highway or major roads, rivers, canals, and/or hills
- ❑ Areas around parks and other neighborhood landmarks
- ❑ Common issues, neighborhood activities, or legislative/election concerns
- ❑ Shared demographic characteristics
 - ▣ Such as similar levels of income, education, or linguistic isolation

2nd Question: Does a Community of Interest want to be united in one district, or to be divided to have a voice in multiple elections?

Public Hearing & Discussion

12

1. Identify key “communities of interest”
2. Discuss whether each community should be kept together in one zone or have multiple representatives
